TAKE ADVANTAGE OF THE CURRENT TAX LAWS BEFORE IT'S TOO LATE!

Current Federal Income Tax Laws Still Benefit Companies That Purchase New Tru Tech Equipment

A recent change to Section 179 of the US Tax Code allows business owners to dramatically reduce the after-tax cost of machinery purchases.

Briefly, Section 179:

- Allows eligible businesses to **deduct up to \$128,000** of the cost of new equipment purchases due to a temporary change in the "Section 179 expensing" rule.
- Can be used in combination with standard depreciation deductions.

For example, you purchase new Tru Tech equipment for \$150,000, which, under previous circumstances, would qualify only for a 20% first year depreciation deduction of \$30,000.

Using the expanded **Section 179** expense provision and 20% depreciation, a company can **deduct up to \$132,400 of their \$150,000 purchase in the first year.**

Purchases up to \$128,000 can be deducted in their entirety!

Order Your Tru Tech Equipment Now!

To qualify for the tax credit in 2008, your equipment must be accepted by **December 31st, 2008.**

The Section 179 expense deduction will decline \$1 for \$1 on purchases over \$510,000. The above example is offered for informational purposes only. ACEL Inc. and Tru Tech Capital make no claim or representation as to its applicability to your specific situation. We recommend that you contact your own accountant or tax advisor to determine if this tax credit applies to your business.
